

The top pyramid points to heaven, representing infinity

The number 100 written in Szekely runes  
(ancient Hungarian writing)

An hour glass shape, or column of infinity, representing the  
passage of time and rebirth, or the ability to restart

The letter B, standing for Bölcső, meaning cradle or baby, thus  
the future generations, as written in Szekely runes.

A place for art designs or local symbols. On our kopjafa, we  
have put logos for BUF and the UUA, an image of the  
Magyarszovát bell tower and the coat of arms of the  
Transylvanian Unitarian Church

This design mixes the number 100 and the letter B, and also  
symbolizes the four directions North, South, East and West

On the lower post of our kopjafa, we spelled out the names of  
the logos and images which we carved above:

Bellingham Unitarian Fellowship

Unitarian Universalist Association

Magyarszovátí Unitárius Templom

(Magyarszovát Unitarian Church)

Erdélyi Unitárius Egyház

(Transylvanian Unitarian Denomination)
